

MAISON & OBJET PARIS 2018

Iwata Mokka, Inc. manufactures Japanese traditional craft “Kendama”, and owns the world’s most famous Kendama brand “MUGEN MUSOU”. A Kendama has always been recognized as a toy, however, we now seek to create a Kendama as “playable objet d’art” that are beautiful to display and enjoyable to play with.

We will exhibit at the most famous interior and design exhibition Maison & Objet Paris 2018 next January for the second time.

We are only one Kendama related company to join an interior and design exhibition. We keep challenging ourselves to a new possibility, so that we can introduce a Kendama to more and more people from all over the world.
